Alexey Boyko's Booking System for Microsoft Office 365 and Microsoft Outlook Now Available on Microsoft AppSource

MOSCOW, Russia — March 24, 2020 — Alexey Boyko today announced the availability of its Booking System for Microsoft Office 365 and Microsoft Outlook on Microsoft AppSource, an online cloud marketplace providing tailored line-of-business solutions.

Resource sharing (meeting rooms, equipment, cars, etc.) should be simple, intuitive, and quick. Booking System makes booking processes easier and quicker. A convenient calendar, the ability to divide resources into groups, and adjustable booking forms decrease the burden on secretaries and administrators as well as eliminating the risk of double booking. Thanks to full integration with Office 365, Microsoft Exchange Online, and Microsoft Azure Active Directory, employees are granted immediate access to the system and the ability to control bookings using Outlook calendars.

The system is designed with safety in mind. Data is kept in Office 365; all bookings remain saved in Outlook, even when completed; and staff members may continue to manage their bookings. Scheduled meetings also remain saved.

"Thanks to Microsoft Office 365 and the Microsoft Graph API cloud-based platform, we were able to develop the system to be installed in a single click," said Leonid Salovatov, Director for IT Management, Alexey Boyko. "Our customers can use the system immediately, without any adjustments and integration."

Kirsten Edmondson Wolfe, Senior Director, AppSource Product Marketing, Microsoft Corp. said, "We're pleased to welcome Alexey Boyko to Microsoft AppSource, which gives our customers access to the best solutions available from our extensive partner ecosystem. Microsoft AppSource offers partner solutions such as Booking System from Alexey Boyko to help customers more efficiently run their day-to-day operations."

Learn more about Alexey Boyko's Booking System for Microsoft Office 365 and Microsoft Outlook at its page on AppSource. Customers can try it free for 60 days.

About Alexey Boyo

Alexey Boyko is a small business in Moscow, Russia, named after the owner.
